

The Ultimate Recycleable Pallet

In our continuing effort to improve and differentiate AIRDEX' environmental performance and value proposition, we have changed our product color to...

WHITE

We're Focused...

on what's best for the environment, which means finding the best recycling options. White-coated pallets are much more acceptable to recyclers, making them the right choice for companies who truly care about their impact on the environment. Please join us in making another huge step in sustainability and a truly GREEN solution in logistics.

Advantages:

- Accepted by More Recyclers
- Recycling Available in All Regions
- More Customers for Recycled Materials
- Fewer Dyes to Process
- Cleaner & Easier to Handle
- Shows Fewer 'Dings' & Dents
- Cleaner in Appearance

...world's lightest pallets™
